

B) 140. A method according to Claim 136, wherein said enzyme
is selected from the group consisting of horseradish peroxidase,
microperoxidase, alkaline phosphatase, glucoseoxidase and
galactosidase.

IN THE ABSTRACT

Please substitute the abstract on the attached sheet
for the abstract as originally filed.

REMARKS

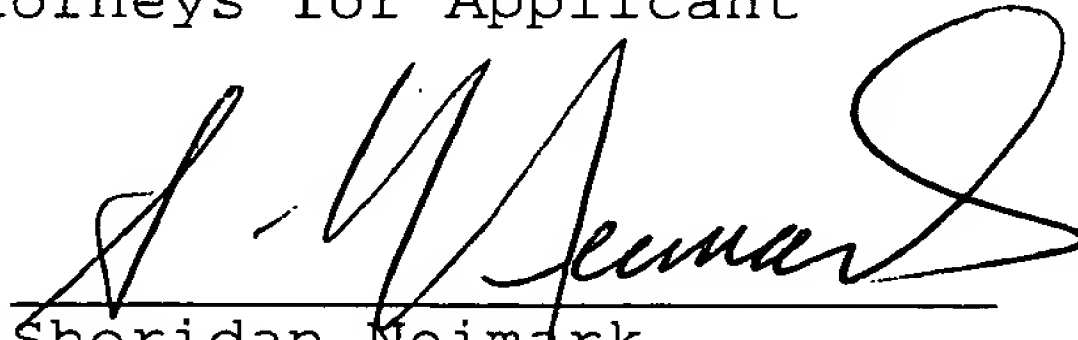

Claims 79-140 presently appear in this case. The
above amendments to the claims are being made in order to add
new claims and to restore at least partly the varying scope of
claims, which was eliminated by the elimination of multiple
dependencies in the claims. The above amendment to the
abstract is being made to replace the attached with the
abstract as originally filed.

Favorable consideration is earnestly solicited.

Respectfully submitted,

BROWDY AND NEIMARK, P.L.L.C.
